AESTHETIC ORIGINATES FROM NATURE'S INSPIRATION

With the Mars brand, our SPC Flooring adds an elegant aesthetic to your modern living spaces with the warmth and naturalness of natural wood shades. Its quality and ultramatt features create a perfect balance between durability and visual appeal.

The design, mimicking the natural wood texture, instills a sense of warmth and comfort in any space, while the ultramatt surface prevents glare and offers easy maintenance, enhancing its resistance to stains and scratches.

Click System

Sunset Floor products utilize Unilin locking systems, UniClik and UniDrop, which are groundbreaking, unique locking systems for SPC flooring. Thanks to their easy installation features, they enable everyone to change their flooring quickly and effortlessly.

UniClik requires no additional tools or professional assistance during the assembly of its parts. It offers a fast and reliable way to install the floor.

UniDrop, on the other hand, is a one-piece, downward-folding technology that provides superior locking performance without the need for plastic parts and ensures easy installation for the short edges of the panel. This glueless locking profile is an enhanced version of the Unipush technology.
